HEAT TRANSFER FLUIDS®
MultiTherm®

YOUR HEAT TRANSFER NEEDS ARE OUR ONLY CONCERN

“Your one source for fast, efficient heat transfer solutions”

The MultiTherm team quickly responds to your call when you need to make the most efficient, cost effective decisions in start-up, operating or maintaining your open or closed loop heat transfer systems. You can rely on over 75 years of knowledge and experience in critical areas pertaining to temperature, oxidation, FDA and USDA related systems applications.

Your one source for heat transfer fluids from -170°F to +600°F to effectively and efficiently meet your specific application needs and requirements:

- Non-Toxic & Non-Hazardous
- Food Grade (FDA/USDA Certified & NSF Approved)
- Flushing/Cleaning Fluid
- High Thermal Conductivity
- High Flash Point
- Very Low Viscosity
- Very Low Vapor Pressure
- Non-Fouling
- Very High Oxidation Resistance
- Very Low Pour Point
- High Heat Transfer Coefficients

Call today to discuss the specific benefits for your application.
